MOZILLA FIREFOX: USING THE BUILT-IN PDF-VIEWER

To change from using another PDF-viewer to built-in PDF-viewer you need to follow these instructions:

1. Click the “**menu**” button and choose “**Options**”.
2. Select the “**Applications**” panel.
3. Find **Portable Document Format (PDF)** in the list and click on the entry to select it.
4. Click on the drop-down arrow in the “**Action**” column for the above entry. Please activate “**Preview in Firefox**” and then close the tab.
5. Your browser is now setup correct.

Valid for versions starting with Mozilla Firefox V52.
